

A man in a grey suit, blue striped shirt, and blue tie is shown from the chest up. He is holding a globe in his hands. The globe features a green grassy hill with a paved road leading up to a modern city skyline with several skyscrapers. The background behind the man is a cloudy sky.

**LEADER IN LAND
GOVERNANCE SOLUTIONS**

 **IL&FS** | IT Services
IL&FS Technologies Limited

EFFECTIVELY DELIVERING REAL-TIME & ONLINE LAND RECORDS/ REGISTRATION SERVICES

ABOUT **IL&FS** TECHNOLOGIES

**ALIGNING TECHNOLOGY WITH
CHANGING BUSINESS NEEDS!**

IL&FS Technology Pvt Ltd. (ITL) is a global technology leader with more than a decade of experience in providing the best-in-class Land Governance solutions.

Given the fact that Land is more than just a key asset of any nation, its vulnerability against man-made and natural disasters such as fraud, duplication, misplacement, fire, floods and the disintegration of paper – can cause billions of land records at risk. Hence, the innately imperfect traditional system of manually maintaining the paper based land records should be replaced with web-based land records.

ITL's Land Records Information System (LRIS) is an optimized, resilient, customized and scalable solution that revolutionizes the landscape with ground-breaking innovations.

Successfully delivered projects comprising more than 100 million land titles across India, SAARC & South-East Asia.

DELIVERING REMARKABLE SERVICES
